subproceeding or the C-125-B subproceeding, and the Court set schedules for the completion of service and briefing on Mineral County's Motion for Intervention. After adjusting the schedule to provide more time for completion of service, it became apparent that completion of service would take an undetermined amount of time beyond the schedules that the Court set. Consequently, on January 8, 1999, the Court vacated the schedule and deferred setting new deadlines for briefing on Mineral County's Motion for Intervention until the completion of service. Order Granting Joint Ex Parte Application to Vacate Schedule for Filing Responses to Mineral County's Motion to Intervene, at 4-5 (Doc. No. 247).

Over the ensuing years Mineral County has completed service on the vast majority of proposed defendants, and currently is making its final service efforts. Pursuant to the Court's Order dated August 2, 2012 (Doc. No. 605), the deadline for completion of Rule 4 service in the C-125-C subproceeding now is March 1, 2013. At status conferences held on August 2 and August 22, 2012, the parties and the Court discussed briefing Mineral County's Motion for Intervention prior to the completion of final service efforts. Because service is virtually complete, and in an effort to move the case forward, the Court has determined that briefing on Mineral County's Motion for Intervention may proceed prior to the completion of Mineral County's final service efforts. After Mineral County's final service efforts are complete, the Court will provide an opportunity for supplemental briefing on intervention for those defendants who are served too late to take advantage of the briefing schedule ordered below.

¹ Unless otherwise noted, all subsequent Court document references in this Order are to C-125-C documents.
